# Introduction

The VA is committed to improving the ability of clinicians to provide care for patients while increasing quality, safety, and efficiency. Recognizing the importance of standardizing clinical knowledge in support of this goal, VA is implementing the HL7 Knowledge Artifact Specification for a wide range of VA clinical use cases. Knowledge Artifacts, referred to as *KNARTs*, enable the structuring and encoding of clinical knowledge so the knowledge can be integrated with electronic health records to enable clinical decision support.

The purpose of this Clinical Content White Paper (*CCWP*) is to capture the clinical context and intent of *KNART* use cases in sufficient detail to provide the *KNART* authoring team with the clinical source material to construct the corresponding knowledge artifacts using the HL7 Knowledge Artifact Specification. This paper has been developed using material from a variety of sources: VA artifacts, clinical practice guidelines, evidence in the body of medical literature, and clinical expertise. After reviewing these sources, the material has been synthesized and harmonized under the guidance of VA subject matter experts to reflect clinical intent for this use case.

Unless otherwise noted, items within this white paper (e.g., documentation template fields, orderable items, etc.) are chosen to reflect the clinical intent at the time of creation. To provide an exhaustive list of all possible items and their variations is beyond the scope of this work.

---

# Conventions Used

Conventions used within the knowledge artifact descriptions include:

<obtain>: Indicates a prompt to obtain the information listed

- If possible, the requested information should be obtained from the underlying system(s). Otherwise, prompting the user for information may be required
- Default Values: Unless otherwise noted, <obtain> indicates to obtain the most recent observation. It is recognized that this default time-frame value may be altered by future implementations

[...]: Square brackets enclose explanatory text that indicates some action on the part of the clinical user, or general guidance to the clinical or technical teams. Examples include, but are not limited to:

[Begin ...], [End ...]: Indicates the start and end of specific areas to clearly delineate them for technical purposes.

[Activate ...]: Initiates another knowledge artifact or knowledge artifact section.

[Section Prompt: ...]: If this section is applicable, then the following prompt should be displayed to the user.

[Section Behavior: ...]: Indicates technical constraints or considerations for the selection of items outlined in the section prompt.

[Attach: ...]: Indicates that the specified item (e.g. procedure or result interpretation) should be attached to the documentation template if available.

[Link: ...]: Indicates that rather than attaching an item (e.g. image), a link should be included in the documentation template.

[Clinical Comment: ...]: Indicates technical considerations or notes to be utilized for KNART authoring and at time of implementation planning.

[Technical Note: ...]: Indicates technical considerations or notes to be utilized for KNART authoring and at time of implementation planning.

[If ...]: Indicates the beginning of a conditional section.

[Else, ...]: Indicates the beginning of the alternative branch of a conditional section.

[End if ...]: Indicates the end of a conditional section.

# [Check box]: Indicates items that should be selected based upon the section selection behavior.

---

# Chapter 1. Mental Health: Homelessness

## Clinical Context

[Begin Clinical Context.]

[Clinical Comment: Intended to support decision-making and documentation related to annual homelessness and food insecurity screening for veterans, and to promote appropriate ordering based on patient-specific risk factors and preferences.]

**Table 1.1. Clinical Context Domains**

Target User	Mental Health Providers; Primary Care Providers (PCPs)
Patient	All patients
Priority	Routine
Specialty	Mental Health; Primary Care
Location	All locations

[End Clinical Context.]

## Knowledge Artifacts

[Begin Knowledge Artifacts.]

This section describes the CDS knowledge artifact that is intended to support documentation of homelessness and food insecurity screening-related findings and decisions. The existing VA national clinical reminder is regarded as the preferred source.

The knowledge artifact defines this clinical use case. The artifact is the Documentation Template and is described in detail in the following sections.

- A Documentation Template: Mental Health: Homelessness KNART
  - Documents screening for homelessness
  - Includes logic for appropriate display of documentation sections

[End Knowledge Artifacts.]

---

# Chapter 2. Documentation Template - Homelessness

[Begin Documentation Template – Homelessness.]

## Knowledge Narrative

[Begin Knowledge Narrative.]

[See Clinical Context in Chapter 1.]

Veterans are at increased risk of homelessness compared with the civilian population; yet clinical decision support for homelessness in the Veteran population, such as clinical practice guidelines and validated screening and evaluation instruments, remain undeveloped compared with other areas of health care for the Veteran population. VA has identified the end of homelessness among Veterans as a major initiative. An essential step in advancing this objective is the identification of Veterans who are either homeless or at increased risk of near-term homelessness; identified Veterans should be referred to available programs and services as appropriate (VA, 2017).

[End Knowledge Narrative.]

## Screening

[Begin Screening.]

[Section Prompt: All Veterans should be screened for homelessness (and near-future risk) annually, unless the Veteran is a long-term resident of a nursing home/long-term care facility.]

[Section Prompt: Homelessness Screening:]

[Section Selection Behavior: Select one. Required.]

# Homeless screen performed

[Section Prompt: Ask Patient: “In the past 2 months, have you been living in stable housing? By that, we mean housing that is affordable, permanent, safe, decent, and livable.”]

# Yes, living in stable housing

[Technical Note: Display the next 2 options only if “yes” is selected].]

[Section Prompt: Ask Patient: “Are you confident that you will continue living in stable housing for at least the next 60 days?”]

# Yes, confident in continuing to live in stable housing

# No, not confident in continuing to live in stable housing

<obtain> Other details

# No, not living in stable housing

[Technical Note: Display the following only if “No, not living in stable housing” or “No, not confident in continuing to live in stable housing” is selected.]

[Section Selection Behavior: Select one. Required.]

[Section Prompt: Ask Patient “Where have you lived for MOST of the past 2 months?”]

# Apartment/house/room, no government subsidy

# Apartment/house/room, with government subsidy

# With friend/family

# Motel/hotel

# Short-term institution, such as hospital, rehab center, drug treatment center

# Homeless shelter

# Anywhere outside, such as street, vehicle, abandoned building

# Other

<obtain> Detail

[Technical Note: Display the following only if “No, not living in stable housing” or “No, not confident in continuing to live in stable housing” is selected.]

[Section Prompt: Ask Patient: "Would you like to be referred to talk more about your housing situation?"]

[Section Prompt: Select one. Required.]

# Patient agrees to referral for homelessness services or assistance

# Patient declines referral at this time; given information for future reference

[Technical Note: Display the following only if “No, not living in stable housing” or “No, not confident in continuing to live in stable housing” is selected.]

[Section Prompt: Ask Patient: "What is the best way to reach you?"]

<obtain> Contact information for patient

# Homeless screen not performed

[Technical Note: The following options should only be displayed when “Homeless screen not performed” is selected.]

[Section Selection Behavior: Select one. Required.]

# Already receiving homelessness services or assistance

# Long-term resident of nursing home/long-term care facility

# Declines screening at this time

# Veteran/caregiver unable to answer

# Other

<obtain> Detail

[Technical Note: End Screening IF “Long-term resident of nursing home/long-term care facility” is selected.]

[Section Prompt: All Veterans should be screened for food insecurity unless the Veteran is a resident of a nursing home/long-term care facility.]

[Section Selection Behavior: Select one. Required.]

---

# Food insecurity screen performed

[Section Prompt: Ask Patient "In the past 3 months, did you ever run out of food and you were not able to access more food or have the money to buy more food?"]

# Yes, food shortage and no money to buy food or access to food

# No food shortage

[Technical Note: Display the following options only if "No food shortage" is chosen.]

[Section Prompt: Ask patient "Are you confident that you will continue to have enough food or money to buy food for at least the next 3 months?"]

[Section Selection Behavior: Select one. Required.]

# Yes, confident in continued access to food

# No, not confident in continued access to food

[Technical Note: Display the following choices only if "Yes, food shortage and no money to buy food or access to food" or "No, not confident in continued access to food" is selected.]

[Section Prompt: Ask Patient: "Would you like to be referred to talk more about your food shortage situation?"]

[Section Selection Behavior: Select any that apply. Required.]

# Patient agrees to referral to social services

# Patient agrees to referral to nutrition and food services

# Patient declines referral at this time; given information for future reference

# Food Insecurity Screen not performed

[Technical Note: The following options should only be displayed when "Food Insecurity Screen not performed" is selected.]

[Section Selection Behavior: Select one. Required.]

# Already receiving services or assistance to address known food insecurity issue

# Resident of nursing home/long-term care facility

# Declines screening at this time

# Veteran/caregiver unable to answer

# Other

<obtain> Detail

[End Screening.]

## Plan

[Begin Plan.]

[Technical Note: Include in Future Implementation Concerns: Separate KNART order set to address items included in this "plan" section.]

Documentation Template  
- Homelessness

---

[Technical Note: Only display the “Plan” section if any of the following items are selected above “Patient agrees to referral for homelessness services or assistance” or “Patient agrees to referral to social services” or “Patient agrees to referral for nutrition and food services”.]

[Section Prompt: Provide homelessness educational materials: <http://www.va.gov/homeless/>.]

[Section Prompt: Order consult for homeless program.]

[Section Prompt: Reason for request.]

# Veteran has been identified as being currently homeless or homeless within the past 2 months

# Veteran has been identified as being at risk of homelessness within the next 60 days

<obtain> Describe in detail the Veteran’s current living situation

[Section Prompt: Order consult for social work or for nutrition and food services.]

[Section Prompt: Reason for request.]

# Veteran has been identified as having a current food shortage or a food shortage within the past 3 months

# Veteran has been identified as being at risk of a food shortage within the next 90 days

<obtain> Describe in detail the Veteran’s current food situation

<obtain> Other details

[End Plan.]

[End Documentation Template – Homelessness.]

# Appendix A. Existing Sample VA Artifacts

The following Figures 1-3 are from the National Homelessness Reminder.

**Figure A.1. VA National Homelessness and Food Insecurity Screening (Image 1 of 3)**

The screenshot shows a web-based form titled "Reminders/Resolutions Homelessness Screening". It includes instructions for screening veterans for homelessness and food insecurity. The form contains several sections with checkboxes and radio buttons for selection. The "HOMELESSNESS SCREENING" section asks about stable housing in the past 2 months and where the veteran lived. The "FOOD INSECURITY SCREENING" section asks about food access in the past 2 months. The "CLINICAL PROVIDER ACTIVITY" section asks about clinical activity in the past 2 months. The form also includes a "Health Factors" section with a "BEST WAY TO REACH POSITIVE" dropdown menu. At the bottom, there are buttons for "Clear", "Cancel/Save", "Validate", "Back", "Next", "Finish", and "Cancel".

Reminders/Resolutions Homelessness Screening

All Veterans should be screened for homelessness (and near-future risk) annually, unless the Veteran is a long-term resident of a nursing home/LTC Facility. Select ONLY ONE (1) of the following options:

HOMELESSNESS SCREENING

In the past 2 months, have you been living in stable housing that you own, rent, or stay in as part of a household?

☐ Yes - Living in stable housing

☒ No - Not living in stable housing

Where have you lived for MOST of the past 2 months?

☐ Apartment/Room/Room - no government subsidy

☐ Apartment/Room/Room - with government subsidy

☐ With Friend/Family

☐ Hotel/Hotel

☐ Short Term Institution like Hospital, Rehab. Center, Drug Treatment Center

☐ Homeless Shelter

☐ Anywhere outside, eg. Street, Vehicle, Abandoned Building

☐ Other

Would you like to be REFERRED to talk more about your housing situation?

☒ Patient agrees to referral

☐ Patient declines referral at this time - Given information for future reference.

What's the best way to reach you?

How to reach:

SCREENS NOT PERFORMED:

☐ Already receiving homelessness services or assistance

☐ Long-term resident of Nursing Home/LTC Facility

☐ Declines screening at this time

☐ Veteran/ caregiver unable to answer

Homelessness educational materials:

<http://www.va.gov/homeless/>

Clear Cancel/Save Validate Back Next Finish Cancel

CLINICAL PROVIDER ACTIVITY

Homelessness Reminder

In the past 2 months, have you been living in stable housing that you own, rent, or stay in as part of a household? No - Not living

Health Factors: BEST WAY TO REACH POSITIVE - HAS NO STABLE HOUSING REFERRED TO HOMELESS PROGRAM

Order: 41 Consult for CRIC - Homeless Program 11

\*Indicates a Required Field

**Figure A.2. VA National Homelessness and Food Insecurity Screening (Image 2 of 3)**

The screenshot shows a web-based form titled "Reason for Request CRIC - Homeless Program Output". It includes instructions for screening veterans for homelessness and food insecurity. The form contains several sections with checkboxes and radio buttons for selection. The "HOMELESSNESS SCREENING" section asks about stable housing in the past 2 months and where the veteran lived. The "FOOD INSECURITY SCREENING" section asks about food access in the past 2 months. The "CLINICAL PROVIDER ACTIVITY" section asks about clinical activity in the past 2 months. The form also includes a "Health Factors" section with a "BEST WAY TO REACH POSITIVE" dropdown menu. At the bottom, there are buttons for "Preview", "OK", and "Cancel".

Reason for Request CRIC - Homeless Program Output

Veteran has been identified as being at risk of homelessness within the next 60 days.

Please describe in detail veteran's current living situation:

What is the best way to reach you to address your concerns:

\*Indicates a Required Field

Preview OK Cancel

**Figure A.3. VA National Homelessness and Food Insecurity Screening (Image 3 of 3)**

The screenshot shows a software window titled "Order a Consult" with a standard Windows-style title bar (minimize, maximize, close buttons). The window is divided into several sections:

- Consult to Service/Specialty:** A list box containing "CRRC - Homeless Program Outpt", which is currently selected and highlighted in blue.
- Urgency:** A dropdown menu set to "ROUTINE".
- Attention:** An empty dropdown menu.
- Clinically indicated date:** A text field with a calendar icon to its right.
- Patient will be seen as an:** Two radio buttons: "Inpatient" (unselected) and "Outpatient" (selected).
- Place of Consultation:** A dropdown menu set to "CONSULTANT'S CHOICE".
- Provisional Diagnosis:** A text field with a "Lexicon" button to its right.
- Reason for Request:** A large text area containing the following text:

Veteran has been identified as being at risk of homelessness within the next 60 days.

Please describe in detail veteran's current living situation:  
t

What is the best way to reach you to address your concerns:  
t
- Bottom Section:** A status bar area showing "CRRC - Homeless Program Outpt Cons CONSULTANT'S CHOICE" and two buttons: "Accept Order" and "Quit".
